WEDDING GETS MANAGED, ONLINE

Want to plan a wedding in an organised way? Now, there is a wedding management software that helps you sort and slot your wedding planning. Shaadi-e-Khas, an online wedding management application has been designed in such a way that helps manage guest list, sends invites, easily tracks RSVPs, creates schedules, manages vendors and expenses, creates image and video libraries and share it with family and friends. Moreover, you can do all this from the ease of your mobile phone. For more information visit shaadiekhas.com.
